PLANT RELIABILITY OPTIMISED
through LUBRICATION MANAGEMENT

Time-proven Lubrication expertise, tailored to keep your business running smoothly

Bijur Delimon International (Denco Lubrication Ltd) has a nationwide network of lubrication technicians working within manufacturing plants throughout the UK, applying tailored lubrication programmes across a wide range of industries including Steel Works, Power Stations, Cement Works, Paper Mills and Pharmaceutical Plants to name but a few. BDI are ISO9001 accredited, Alcumus (Safe Contractor) approved and a member of Achilles UVDB.

TOTAL LUBRICATION MANAGEMENT

Our 'cradle-to-grave' plant lubrication service...

BDI work in collaboration with clients to ensure maximum plant availability and minimise downtime.

"No lubrication-related failures" is our constant goal.

Working with our PC-based lubrication software tailored specifically to the plant, we apply lubricants accurately and consistently to ensure correct lubrication to all plant areas with no wastage.

BDI also offer a plant charting service which goes hand-in-glove with the lubrication programme. We will work together with your lubricants supplier (whilst not being bound to them) to guarantee the correct grade and quantity of lubricant is applied to each and every component in a timely manner.
