

Brush Assemblies

Nylon Bristle

General

Brush assemblies are suitable for lubricating various moving machine components, such as: chains, gears, cams, etc. They are ideal for low-heat applications like packaging machinery, food processing and sorting. Brushes can ride on chains without being knocked out of position.

Operation

Oil flow to **flat brushes** may be governed by Type F meter units for cyclic applications or by Type C control units for continuous applications. Oil flow to **round brushes** may be governed by ZST injectors or FT meter units.

Technical Data

Bristle Material	.012" diameter nylon
Temperature Range	-30°F to 200°F

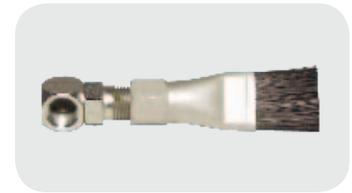

Installation

Bristle end of brush must be below inlet connection. Mount securely to avoid vibration.

How to Order

Name	Description	Part #
Flat Brush Assembly	Flat brush, 1/8 NPTF adapter	B7488
	Flat brush, 1/8 NPT elbow adapter	B7490
	Flat brush, 5/32" adapter with bulk head adapter	B7491
	Flat brush, 1/8 NPT adapter with bulk head adapter	B7492
Round Brush Assembly	Round brush, 1/8 NPTF adapter	50955
	Round brush, ZST injector, 3-way junction, 2 push-to-connect fittings	37074
	Round brush, FT meter units, 3-way junction, 2 push-to-connect fittings	37075

When ordering, specify by name and part number, e.g. Round Brush Assembly, Part #50955.
